

# EVAPORATIVE COOLERS

## MEC 20 EVAPORATIVE COOLER

-  AIRFLOW - 20,000 M3/HR
-  H-1800 X W-1600 X D-800 (MM)
-  POWER - 240 VOLT - 3.5 AMPS
-  WEIGHT - 105KG

The MEC 20 Evaporative Cooler provides a massive 20,000 m<sup>3</sup>/hr of cooling. It comes with a fully adjustable fan, intelligent control system, strong lockable castor wheels and can be run with or without the cooling mode activated. The MEC 20 has a huge 250 litre water reservoir, so if you do not have access to a continuous water supply then you will still be able to get hours of operation before the unit requires topping up. This unit operates from a standard 10 amp power supply.
