

DBK Boost Box

- **Temperature Settings**
 - 20° - 30°C (Boost Drymatic)
 - 40° - 50°C (DADS)
 - 50° - 60°C (AUX Heat)

- **Power – 240 volt – 8.9 amps**

- **H-550 x W-480 x D-140 (mm)**

- **Weight – 15kg**

The DBK Boost Box is one of the most advance auxiliary heat systems on the market. It detects the direction and temperature of your airflow, continuously monitors and intelligently controls its own output to efficiently maintain your drying environment.

The DBK Boost Box adds an additional 1.8kW of thermal energy to the environment being dried. It can be coupled to an Air mover, DBK Wall and Floor systems or used in conjunction with the DBK-2 Heat Dryer to offer a range of drying capabilities.
