

# MEC 7 EVAPORATIVE COOLER

- Airflow – 7000 m<sup>3</sup>/hr

- Power – 240 volt – 2.0 amps

- H-1440 x W-980 x D-600 (mm)

- Weight – 60kg

The MEC 7 Evaporative Cooler provides up to 7000 m<sup>3</sup>/hr of cooling. It comes with a fully adjustable fan, strong lockable castor wheels and can be run with or without the cooling mode activated. The MEC 7 has a good sized water reservoir, so if you do not have access to a continuous water supply then you will still be able to get hours of operation before the unit requires topping up.
