 H-1990 X L-2374X W-1210 (MM)

 WEIGHT - 490KG (WITHOUT FUEL)

 FUEL TYPE - DIESEL

 FUEL TANK CAPACITY - 18 LITRES

 WATER TANK CAPACITY- 1000 L

The DF 3000 MPT is a dust control unit equipped with a fog cannon installed on a manual telescopic mast, a plastic water tank and a power generating set. A perfect solution for larger working areas where water and power are not available. The DF3000 MPT Dust Control unit has an independent dust suppression system ideally for use in larger indoor or outdoor spaces. Equipped with a fog cannon installed on a manual telescopic mast, which raises to 4m and has a range of 20m. It features a 1,000L plastic water tank, which will supply water for 160mins. It also has a built in 4kva generator making it fully self contained and is on a skid for easy transport.
