

EVAPORATIVE COOLERS

MECY 14 EVAPORATIVE COOLER

AIRFLOW - 14,000 M3/HR

H-1300 X W-740 X D-500 (MM)

POWER - 240 VOLT

WEIGHT - 45KG

The MECY 14 Evaporative Cooler provides up to 14,000 m³/hr of cooling. It comes with a fully adjustable fan, electric oscillating louvers, strong lockable castor wheels and can be run with or without the cooling mode activated. The MECY 14 has a 60L water reservoir, so if you do not have access to a continuous water supply then you will still be able to get hours of operation
