

AIR PURIFICATION

HQAIR PROFESSIONAL HYDROXYL UNIT

AIRFLOW - LOW FLOW/LOW NOISE

COVERAGE - 30M² - 50M²

POWER - 240 VOLT

DIMENSIONS: 370 X 370 X 75MM

The HQ Air Professional Hydroxyl unit can significantly reduce airborne and surface contaminants with powerful indoor air purification and sanitisation solution designed for homes, offices, classrooms and commercial spaces

Compact, lightweight and built for durability, the HQ Air Professional unit is only slightly larger than a standard pizza box and can be easily mounted to any internal wall using a standard 240V power outlet. Each unit is capable of effectively decontaminating rooms between 30-50sqm, making it an ideal solution for homes, offices, classrooms, consulting rooms, patient rooms and small retail environments.
